COMPANY OVERVIEW

About Us

Metro Holding k.s.c.c. is a Kuwaiti company founded in 2018. Leveraging extensive experience across various industries, our experts unified their expertise to establish Metro Holding Company.

We are dedicated to innovation and excellence in finance, energy, technology, and construction. Committed to sustainable development and cutting-edge solutions, Metro Holding delivers exceptional value to clients and stakeholders. Our team of seasoned professionals collaborates to maintain the highest standards of quality, efficiency, and reliability. Through strategic partnerships and a forward-thinking approach, we aim to expand our global presence and positively impact the markets we serve.

OUR PROCESS

Vision

Metro Holding visions aiding emerging countries in bridging the economic gap with the Western world. As a leading global partner, Metro Holding empowers customers worldwide by utilizing technology to tackle their challenges efficiently. Our success in bringing innovative technologies to new markets demonstrates our commitment to advancing practical solutions. We are dedicated to being a vital resource across various sectors, driving significant investments and progress. Our company is committed to reducing carbon emissions from energy production and continuously strives to be environmental stewards by employing modern technology in collaboration with our partners. We prioritize sustainable development and actively seek to implement practices that benefit both the environment and the communities we serve. Through strategic partnerships and a focus on innovation, Metro is at the forefront of creating resilient and sustainable economic growth. Our vision extends beyond mere technological advancement; we aim to foster inclusive progress that leaves a lasting positive impact on societies globally.

RENEWABLE ENERGY

Our expertise encompasses the establishment, investment, and financing of clean energy ventures, including solar and wind power projects. Renewable energy sources, characterized by their continual replenishment at a rate exceeding consumption, are a key focus of our operations.

Additionally, we possess extensive experience in establishing conventional power stations, such as thermal, gas, and hydroelectric plants. Leveraging our capabilities and profound experience, we deliver comprehensive solutions.

Our collaborations with international partners from regions including China, the United States, and Europe further enhance our offerings in this domain.

We are committed to advancing sustainable energy solutions through innovative technologies and strategic partnerships. Our team of experts ensures the highest standards of project execution, from initial planning and feasibility studies to final implementation and operational management.

By integrating cutting-edge technology and adhering to rigorous environmental and safety standards, we provide reliable and efficient energy solutions that meet the growing demands of the global market. Our dedicated approach to sustainability not only drives economic growth but also contributes to the well-being of communities and the preservation of our environment for future generations.

CONSTRUCTIONS

Metro Holding Company specializes in the planning, investment, and funding of various construction endeavors, encompassing a wide spectrum from transportation infrastructure such as roads, bridges, airports, and tunnels, to architectural marvels like towers and essential civic infrastructures.

Our foremost objective is the proficient execution of each construction project, adhering to predefined timelines and budgetary constraints, all while upholding exemplary standards of quality. We prioritize harmonizing the aesthetic, energy efficiency, and ecological compatibility of every project with the specific needs and preferences of our clientele.

Through strategic partnerships with esteemed construction entities across Asia and Europe, we leverage a formidable array of expertise and experience. These collaborations empower us to tackle an array of ambitious construction ventures globally, spanning residential complexes, urban development initiatives, industrial facilities, and healthcare establishments. Additionally, our portfolio encompasses the construction of vital water treatment facilities, including those dedicated to both potable and desalinated water, underscoring our unwavering dedication to sustainable infrastructure development.

OIL & GAS

Investing in the oil and gas sector offers promising opportunities for investors aiming to capitalize on a vital resource crucial to a multitude of industries, including transportation, heating, cooling, manufacturing, and various energy-intensive sectors.

Metro Holding is a notable investor in the Ma'an Refinery situated in Jordan.

Beyond refining activities, our investments encompass a wide spectrum of the oil and gas industry, including petrochemical complexes, facilities for storing crude oil and gas, and global transportation and trading of crude oil and its derivatives.

Moreover, we are dedicated to enhancing the quality and specifications of crude oil and its derivatives through collaborative ventures with our partners. We leverage innovative refining techniques and modern technologies to adapt to the evolving demands of the market.

FINANCE & INVESTMENTS

Metro Holding Company, together with its affiliates and stakeholders, has cultivated enduring partnerships with reputable financial institutions, encompassing Investment, Commercial, and Islamic Banks. Furthermore, we maintain strong affiliations with diverse Emerging Market and Equity Funds.

In its operational role, Metro Holding facilitates internal finance initiatives, harnessing the strength of the aforementioned established relationships. With steadfast assurance, we streamline the financing and investment processes for various projects, contingent upon thorough assessments of both sovereign and corporate risk profiles.

In tandem with our commitment to prudent financial stewardship, Metro Holding employs rigorous due diligence procedures to evaluate potential investment opportunities. Our team of seasoned professionals employs sophisticated risk assessment methodologies to ensure optimal allocation of resources and mitigation of potential risks.

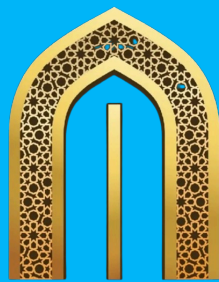

This meticulous approach underscores our dedication to delivering sustainable growth and value creation for our stakeholders.

INFORMATION TECHNOLOGY

Metro Holding Company provides a tailored Local Search Engine solution designed to meet the unique requirements of our clients. Our platform delivers geographically prioritized search results, customizable category filters, optimized performance, and a user-friendly interface.

In addition, our Cloud Storage Solution offers secure and accessible cloud storage systems, including object, file, and database storage options. We prioritize robust security measures, including access control, encryption, and firewalls, to ensure the safety of your data.

At Metro Holding, we serve as your comprehensive IT partner, offering a wide array of services to address your needs. From custom software development and IT consulting to network infrastructure setup, cybersecurity solutions, and managed IT services, we leverage cutting-edge technology and industry best practices to deliver innovative, reliable, and scalable solutions. Our dedicated team of IT experts is committed to understanding your unique requirements and delivering tailored solutions that drive efficiency, productivity, and growth for your business. Whether you seek to enhance your digital presence, safeguard your data, or optimize your operations, Metro Holding has the expertise and resources to fulfill all your IT needs.
